

Product info page: **Laser Cradles**

Vision 10 slot laser cradles are ideal for showing single large format tiles. Our standard version is designed to hold 10 products up to 12mm thick and is available from stock in silver. We can also manufacture many other versions to suit different product quantities, tile thicknesses and colours if required.

Vision can also provide special cradles in a wide number of designs including backboard versions that allow for point of sale to be displayed. All variations made to order.

For further information please contact the Vision Display sales office on: tel: 01227 832265 fax: 01227 832184
