

Product info page: **Replacement tile panels**

Vision manufacture & stock the replacement tile display panels required for all the `euro21`, vision clapper, bookstand & rotary tower displays. Many 100's of these displays have been supplied over the last 10 years and most users require new replacement display panels at some point.

Vision stock the tile display panels in both the Beech & maple finishes, in sizes to suit all the display stand options shown below.

beech

maple

Divider trims for `splitting` the displays on full sized display panels also available.

Alternatively we can use the same trim finishes to manufacture different size tile display panels for hanging on your showroom walls or racks as required - just contact the sales office for more info.

For further information please contact the Vision Display sales office on: tel: 01227 832265 fax: 01227 832184
